*Congratulations! You are getting married!*

## WE TAKE YOUR FUN SERIOUSLY

**A memorable wedding isn't as simple as saying "I do".  
Organising a wedding in your local area can often be challenging and  
time-consuming, organising it abroad can be simply daunting.**

As a locally based event specialist we speak the language, know the places, have sourced the best suppliers and negotiated the best deals. We will hold your hand throughout the whole process, taking away the stress, allowing you to enjoy the fun and romance of your dream wedding. We listen carefully to what our couples want and ensure that the weddings we plan are meaningful and reflect you, both as individuals and as a couple.

We would love to be your wedding planner (... and designer, coordinator, negotiator, therapist, friend...) to help with everything from balancing budgets to setting the flower arrangements and synchronising the sparklers and the first dance. After all, this is probably the largest party you've ever thrown, and it's helpful to have someone by your side who's done it all before.

# OUR SERVICES

We specialise in organising and designing personalised events for 10 to 500 guests. Therefore, we offer a wide range of bespoke services that can be individually tailored to your needs whether it's for a fun party, an unconventional wedding or a wedding fit for royalty.

## WEDDING PLANNER FULL SERVICE - FROM A TO Z

We take care of every single detail with love, passion and creativity, so you don't need to worry about a thing. From the initial ideas stage to the grand finale, there isn't anything we can't do for you.

We help you with design ideas, source and negotiate the best deals from wine suppliers to your wedding menu, flower arrangements, sound systems, DJ, photographer/videographer, entertainment, wedding cake etc. etc., and of course we will be there on the big day managing all the details so that everybody and everything is in its place. (This also includes making sure the last guest gets home safely...)

## STYLING

If you already have the venue and suppliers but still need inspiration with the style and decoration, we are here to help you. We love to design, and our no-nonsense approach coupled with creativity and innovative thinking, means we always come up with great solutions and on budget.

## CONSULTING

Even if you have the time to arrange all aspects of your wedding celebration yourself, our consultation service can still make an invaluable contribution. We can advise on all aspects of organising your big day and with our insider knowledge of the area, the venues and the suppliers, we can help ensure that you have all details covered and nothing is left to chance.

## DON'T LET THE PARTY STOP

Our couples and their guests often want to make the most of their stay in the beautiful Sitges and Barcelona area. Whether it's for an extended weekend or longer vacation, we can arrange a wide selection of high-quality accommodation for you and your guests. We can also organise fun activities & experiences for you to enjoy before or after the wedding day. Popular choices include boat trips, wine tasting, Barcelona tours, paella lessons and more.

# WHAT OUR COUPLES THINK ABOUT US

“ We just want to thank you for making our day the most amazing day ever. Everyone is saying it's the best wedding they've been to. That means so much to us as it's a big ask asking people to come abroad. We gave the caterers a round of applause as they were leaving. They worked so hard all day and the food was lovely. I think everyone either gave them a hug or a hand shake.

Please would you also pass on our thanks to Andrea for doing my hair and the lovely cake, it was beautiful. We also thought Edgar was fantastic, he spent a lot of time with us. Thanks also for the flowers and extra little touches like the candle bags and bubbles.

All in all a brilliant day  
that we won't ever forget.

Thanks so much,  
Sarah & Richard

“ Hosting a wedding for our son with Anya and her superb team, like all parents footing the bill, we were demanding on quality and execution which was delivered with perfection. The day took an “interesting” turn with an unexpected tropical thunderstorm. This blew our plans completely!

I was impressed how the team were resourceful in fixing and changing all the arrangements twice in the same day, as the weather changed again. It all went to plan and like clock-work and I could not thank the planners enough. I highly recommend them.
